Stainless Steel Group Lock Boxes S600 Series

The S600 Group Lock Boxes from Master Lock are made of stainless steel to withstand the toughest environments. The rugged construction offers enhanced design features, making these lock boxes stronger and easier to use. All three models – the S600, S601 and S602 – include a clear, impact-resistant window, allowing participants to see that keys are secured inside the box during group lockout. The stackable design facilitates storage and simplifies transporting multiple boxes.

Heavy-Duty Group Lock Boxes that Offer Visual Verification of Secured Keys

18 numbered lock holes for easy identification

Flanged design offers easy application of locks

Drain holes on the bottom limit liquids from accumulating inside

Stainless steel construction maximizes corrosion resistance

Gasketed key slot to drop keys into removable cup

Latch with lock hole for operations lock

Clear, impact-resistant window provides visibility to secured keys

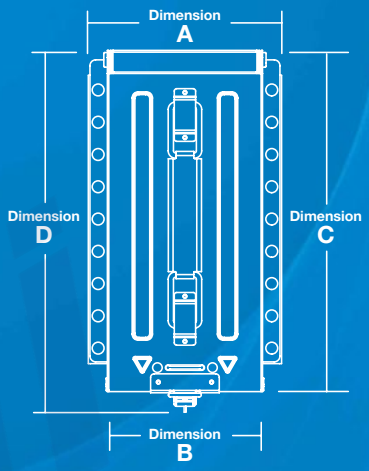

Stainless Steel Group Lock Boxes S600 Series
