(additional configurations are available)

The RPB Z-Link is a multi-use powered or supplied air loose-fitting respirator, covering a number of different industrial applications where there is a need for respiratory, eye, face, head, and hearing protection.

This respirator does not require face fit testing.

Type description

Loose fitting continuous flow supplied air respirator or powered air purifying respirator.

The Z-Link offers a number of optional accessory items, including:	Part #
Z-Link+® Weld Visor accessory	16-670
Quiet-Link™ Ear Defender system (under the cape so user maintains APF 1000(US)/TH3 (EU) respiratory protection)	18-533
Vision-Link™ helmet light	16-901

Z-Link® respirator

Protecting you for life's best moments.

Required components

WELDING EYE PROTECTION

16-670 RPB Z-Link+
Weld Visor with ADF lens

The RPB Z-Link+ is an optional attachment accessory for the RPB Z-Link multi-use respirator. It is intended for use in welding and grinding applications where there is a need for protection from airborne contaminants, eye/face protection and head protection. The Z-Link+ does not provide respiratory protection when not used in conjunction with the RPB Z-Link.

Type description

Z-Link weld visor attachment.

Part numbers	Part #
Auto darkening configuration	16-670
No lenses	16-671

Required components

- RPB Z-Link respirator head-top
- FR cape or face seal
- Breathing tube
- Flow control device and breathing airline, or RPB PAPR

Application ranges (including but not limited to the following)

Heavy industry welding (where hard hat is required), arc spray/metalization, plasma/oxy acetylene cutting, lancing, and burning.

Specifications
